

DRUM CRUSHER SERIES DC55

HYDRAULICS

A rugged two-speed hydraulic pump powers the heavy duty cylinder to 37,000 pound crushing force. The ram is automatically cycled by a unique all hydraulic control valve. The cycle can be manually overridden at any point.

SAFETY

An emergency stop button shuts off all power at a touch. A safety interlock automatically shuts off the hydraulic power when the door is not completely closed.

PORTABILITY

The bottom has a built in skid for easy fork lift portability. Optional casters are available.

CRUSHING HEAD

A drum piercer punctures the drum head and vents pressure through the squeeze head as the drum is crushed.

Drum Crusher Series DC55...

has been carefully engineered for rugged industrial service and durability at a reasonable price. It crushes 55 gallon steel drums to 4 to 6 inches in 35 seconds. It also excels at crushing smaller drums and cans.

We offer four electric motor choices and one air powered model. Custom modifications and a full line of accessories are available to meet any special requirements.

SERIES DC55 DRUM CRUSHER SPECIFICATIONS: All Models

DIMENSIONS: Outside 32-in. wide x 32-in. deep x 94-in. high,
Inside 28-in. wide x 28-in. deep x 39-in. high

CYLINDER: 4-in. bore, 2-1/2-in. Rod dia., 36-in. Stroke,
37,000-lb. Ram Force

SHIPPING WEIGHT: 1400 lbs.

MODEL	MOTOR		POWER			CYCLE TIME SEC.
	HP	TYPE	VOLTS	PHASE	AMPS	
DC55-E50	5	TEFC Electric	230/460	3	11/5.5	35
DC55-X50*	5	Explosion Proof	230/460	3	11/5.5	35
DC55-E15	1-1/2	TEFC Electric	110/220	1	18/9	100
DC55-X15*	1-1/2	Explosion Proof	110/220	1	18/9	100
DC55-A50	5	Air (Exp. Prt.)	170CFM @ 100psi			35

* Explosion Proof electric motor and motor controls:
Class 1, Div. 1 and 2, Grp. D. Adds 10-inches to outside width.
Optional CASTERS available for portability. Adds 6-inches to overall height.
