Recycling and Waste Management Solutions

MODEL Glass Crusher 95-2

Shown above with optional stand

- ▶ Rated capacity of over 600 glass bottles per hour
- ▶ Crushes up to and including 1 gallon size glass jugs or bottles
- ▶ Lightweight; easily moves from one drum to another. Fits over 30 and 55 gallon drums
- ▶ Special hardened steel impellers give maximum resistance to wear
- ▶ Machine crushes efficiently as fast as operator can feed it

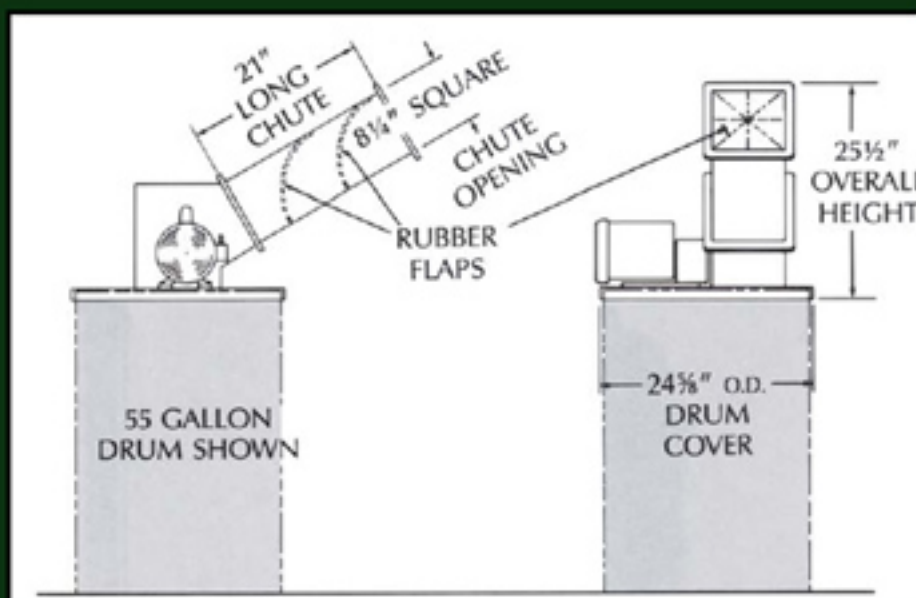

Save time, money, labor and space with this new improved crusher. This machine is ideal for bottlers, recycling centers, cafeterias, restaurants, taverns, municipalities and institutions. Users like the big savings and convenience in removal and handling costs. The Model 95-2 is made for hard use, trouble free operation and dependability for years in service.
